The "Peerless,"

The Best Cooking Stove ever made for Coal or Wood.

With or without Extension Top. Nos. 7½, 8, 8½, and 9,

The "PEERLESS" has all the advantages of the popular Stoves in use, together with such NEW FEATURES as justify the manufacturers in calling it the BEST COOKING STOVE in the market.

It is the "PEERLESS," because it is superior to all other Cooking Stoves in *Economy, Simplicity, Cleanliness, Baking, Roasting, and Beauty.* 1st. **ECONOMY.** A patented method of heating the air and conveying it through the oven, saves from *twenty to thirty per cent of fuel.* 2d. **SIMPLICITY.** It is easily managed. The fire can be perfectly controlled, and kept through an entire season without rekindling. 3d. **CLEANLINESS.** No dust escapes while shaking or dumping the grate. 4th. **BAKING.** Its large oven, wherein all parts are of *equal* temperature, bakes as *evenly* as a brick oven, and that without turning the article. It bakes quickly. 5th. **ROASTING.** A current of hot air constantly passing through the oven, so thoroughly *utilizes* it that it *roasts as well as a Tin Kitchen.* 6th. **BEAUTY.** Made of the best iron, it will not crack. Well moulded, artistically designed, and smoothly cast, it is the most *beautiful*, as well as the most *serviceable* Stove in the market. Each Stove is **WARRANTED** to be and to do all that is claimed for it. In all the requisites of a first-class Cook Stove, the "Peerless," as its name indicates, has no equal in the market.

THE MODEL FURNACE,

MANUFACTURED BY THE

BARSTOW STOVE COMPANY,

PROVIDENCE, R. I.

All persons in want of Furnaces are requested to call and examine this Furnace, which possesses many advantages over all others, and is decidedly the best in the market.

THE CELEBRATED

Oriental Base Burning Furnaces and Stoves.

Also, as large a variety of Parlor, Kitchen and Office Stoves as can be found elsewhere in the city.

Particular attention paid to all kinds of PLUMBING, TIN AND SHEET IRON WORK.

ALSO, THE EUREKA CLOTHES WRINGER,

Which needs only to be tried to become the pet of Washing-day.

PREFACE.

WE take pleasure in presenting the FIRST NUMBER of the SOMERVILLE, ARLINGTON, and BELMONT DIRECTORY to the Public. No expense has been spared to furnish such a book as would be a credit to ourselves as well as to the Towns represented.

The Towns have been thoroughly canvassed by competent agents, and the book is compiled on an improved plan, which cannot fail to find favor with all those who may have occasion to use it. We have also added a new map of each place, engraved expressly for this work.

The book is printed with new type, on extra paper, and bound in a handsome and substantial manner, and we do not hesitate to say it cannot be excelled for style and correctness.

We would especially call attention to our ADVERTISING DEPARTMENT. It contains the business cards of many of the first-class merchants and manufacturers of SOMERVILLE, ARLINGTON, BOSTON and vicinity.

Many thanks are due to all who have aided us in any way in our arduous duties, and especially to the numerous patrons of the work.

Respectfully,

DUDLEY & GREENOUGH.

SKETCH

OF

SOMERVILLE.

This pleasant town was formerly within the territorial limits of Charlestown, from which it was separated and legally invested with the rights of an independent township in the year 1842.

It contained at that time about 1,000 inhabitants. There was no place of worship in the town until March, 1844, when through the active exertions of Rev. Richard Manning Hodges, with the concurrence and approbation of the Rev. Geo. E. Ellis, of Harvard Church, Charlestown, the first assembly for public worship gathered in a small "upper room" of an unpretending building, situated on the corner of what is now Washington and Prospect streets. The meeting was represented by about thirty families. From this meeting, sprung up what is now the first Congregational church, located on Highland avenue.

The town is pleasantly situated ; abounding in a variety of hill and dale. There are many splendid residences on Spring, Winter and Prospect Hills, from which the most extensive and delightful views of the city and surrounding country, are to be had. On the top of Winter and Prospect Hills, are still to be seen the remains of the embankments thrown up by the Americans, for their defence after the battle of Bunker Hill and during the memorable siege of Boston.

The Schools of Somerville are of a high order,—consisting of a High School, and Fourteen Grammar and Primary Schools. Two School-houses have been erected this year, The Bennett School House at a total cost of \$12,643.68. The Webster School House, \$11,860.20. The town appropriated, in 1868, \$41,700 for School expenses. More than \$120,000 have been expended for the purchase of land, and the construction and furnishing of school-houses, during the past eight years.

When Somerville was incorporated in 1842, there were only 293 scholars belonging to all the schools, although children were admitted at four years of age.

There were belonging to the town *four* school-houses, containing in all, *five* school-rooms.

The Town since its organization has built 17 school houses, containing in all, 59 school-rooms.

Connected with the High School is an association which was organized in 1864. Several courses of popular lectures, free to the public, have been given by this society the past winter.

The High School and all the Grammar Schools, are furnished with pianos, and instruction in vocal music is given in these schools once each week, by teachers especially employed for the purpose, and with gratifying results.

The Town is now being supplied with an abundance of pure water.

The first action by the town in regard to the introduction of the Mystic Lake Water, was at a Town Meeting held Nov. 5th, 1867, when, upon the petition of Nathan Tufts, Jr., and others, it was voted "That Nathan Tufts, Jr., Aaron Sargent, George O. Brastow, S. A. Carlton, C. E. Rymes, Thomas Cunningham and Levi Russell, be a Committee to take the whole matter of contracting with the City of Charlestown for a supply of Mystic Water into consideration—confer with the Charlestown authorities—propose some plan, and report at the next Town Meeting."

At a Town Meeting held March 2d, 1868, the Committee reported progress, and asked for further time, which was granted.

At a Town Meeting held April 13th, 1868, the Committee submitted the final report, which was accepted.

Mystic Lake is in the towns of Medford, Arlington and Winchester, about three miles from the point of commencement of our twelve inch distribution pipe; the location of the Pumping Engines, near Mystic River, is about two miles, and the Reservoir on Walnut Hill—of over 26,000,000 gallons capacity—is about one and a quarter miles from the same point. From the twenty-four-inch supply main leading from the Reservoir to Charlestown, a twelve inch pipe—laid by and the property of, the City of Charlestown,—leads to and connects with the twelve-inch distribution pipe at the point above mentioned.

The following table, taken from the Report of the Mystic Water Commissioners, gives the comparative purity of the waters designated:

Mystic Lake, in 1862, solid residue per	gal. in grains,	3.22
Lake Cochituate, " " "	" " "	3.37
Mystic Lake, in 1859, " " "	" " "	4.08
Schuylkill (by Boye) " " "	" " "	4.42

Lake Cochituate, in 1845, residue per	gal. in grains,	5.00
Schuylkill (by Booth & Garrett), “ “ “ “		6.10
Spot Pond, in 1845, “ “ “ “		6.19
Fresh Pond, “ “ “ “		6.32
Croton River, N. Y. “ “ “ “		10.93

On the line between Somerville and Medford is Tufts College. This College originated in a movement among Universalists in the United States, who felt it important that the denomination to which they belong should take a more active part in the cause of liberal education. In May, 1847, a number of them met in convention at New York, to adopt measures for establishing a college. For this purpose they ordered a subscription to be opened for \$100,000 as the minimum sum, and chose a committee to procure agents to raise the amount, consisting of Rev. T. J. Sawyer, Rev. H. Ballou, 2d, Rev. Thomas Whittemore, B. B. Mussey, and James Y. Watkins. At a meeting held in September of the the same year, Chas. L. Stickney and Otis A. Skinner, were added to said committee. After various fruitless efforts to obtain agents, Rev. Otis A. Skinner, in 1848, consented to make an effort in behalf of the movement. In the summer of 1851 he gave notice that the amount of \$100,000 had been subscribed, and called a meeting of the subscribers, in his church, at Boston, on the 16th of September. At that meeting a Board of Trustees was chosen, and empowered to locate the institution. Walnut Hill, in Medford, Mass., was selected, and the institution was named Tufts College, in honor of Charles Tufts, who made a very munificent donation to it in land. In 1852 a charter was obtained, and in the spring of that year the work was commenced. The corner-stone was laid July 19, 1853.

The college building is an elegant brick structure, 100 by 60 feet, three stories high, containing a chapel capable of seating between 300 and 400; a library room large enough to receive 20,000 volumes, seven recitation rooms with adjoining rooms for professors, and four other rooms used for lecture rooms, society rooms, &c. There is, perhaps, no better college edifice in the country. A large brick edifice, with rooms for about forty students, has been erected, which is, in all respects, a model building. A suite of rooms contains a study and a bedroom. Students have the privilege of boarding and rooming in private houses.

The course of instruction in this college extends through four years, and is, in general, the same as that of other New England colleges.

The McLean Asylum for the Insane, under the superintendence of Dr. John E. Tyler, is located in this town,

and is probably one of the best institutions of the kind in the country.

The principal manufactories are the Somerville Bleachery & Dye Works, located on Milk street, and employing a large number of hands, both males and females; also, the American Tube Works, on Frost's Avenue, and the Union Glass Works, on Prospect street, both of which are large establishments.

Brick manufacturing is also carried on to a large extent, there being some ten or twelve different firms engaged in it.

For a complete list of the other business places, etc., see the business directory of Somerville in this work.

Somerville, like most of the suburban towns, is peopled largely by those who are engaged in business in Boston, and there are over 600 names in this directory designated as doing business in that city.

From the peculiar advantages of this town, in being so near (only from two to three miles from Boston) and so easy of access to the central parts of the Metropolis, may be traced its almost unprecedented growth and prosperity. Large numbers of houses spring up from week to week as if by magic, many of them elegant and costly residences. Four lines of steam and three of horse railroads give travelling facilities that are possessed by no other town in the commonwealth. The Boston & Maine and Eastern pass through the eastern part; the Fitchburg through the southwestern part, and the Lowell through the centre. The Middlesex Horse R.R. passes through the eastern, over Winter Hill; the Union Square line via Charlestown, and Union Railway via East Cambridge through the centre and south western part every half hour through the day and evening.

There are at present seven churches in Somerville: one Unitarian, two Orthodox, two Baptists, one Universalist, and one Episcopal. Most of these societies have fine edifices, not excelled for architecture and beauty by any in this vicinity.

Probably no place has ever suffered so severely by fires as Somerville within the past few years, losing no less than 5 churches and 2 school-houses within that time; one Society (the Unitarian) have had their church burnt twice.

Somerville was one of the foremost in the State to furnish her quota of men for the army during the Rebellion, and an elegant monument to the memory of those who fell during the war has been erected in the cemetery on Milk street, at a cost of \$1,400.

Somerville furnished about 1,400 men for the army and navy at different times, including 4 full companies.

The amount of money raised and paid out by the town during the war amounted to \$198,862.76. Of this sum, \$65,823.35 was raised by subscription.

The population of Somerville in 1842 was 1,013; 1850, 3,540; 1855, 5,806; 1860, 8,025; 1865, 9,353; 1868, 12,535.

The following statistics are copied from the town report of 1869:

BIRTHS AND DEATHS IN SOMERVILLE IN 1868.

Births.

Whole number of births in Somerville for the year 1868,	396.
Males,	200
Females,	196
Children born of foreign parentage, . . .	212

BALLOU & CO.,

Successors to WALTER BRYENT,

WALTER BRYENT'S PATENT FURNACE, for Churches, School-houses, Stores and Private Residences, — the most durable and economical furnace in the market.

Parties in want of a good furnace will find it for their interest to get our prices before purchasing elsewhere. Portable Furnaces adapted to all ordinary requirements. We also sell a new pattern Fireplace Furnace, which takes no more space than a common grate, and warms the room in which it is placed, and the parlor and chambers above. Very ornamental and economical. Old furnaces cleaned, repaired and improved. Smoky chimneys cured, and all kinds of jobbing mason's work attended to. Contracts made for warming and ventilating public buildings in all sections of the country. Send for circular.

BOSTON:

COMPILED, PRINTED AND PUBLISHED BY
DUDLEY & GREENOUGH,
8 CONGRESS SQUARE.

1869.

Entered according to Act of Congress, in the year 1869, by DUDLEY
& GREENOUGH, in the Clerk's Office of the District Court
of the District of Massachusetts.

SKETCH OF ARLINGTON.

BY REV. D. R. CADY.

The Town of Arlington has had the fortune to be known by several names. It was first called Northwest or Second Precinct of Cambridge. Then it took the Indian appellation, Menotomy. It was afterwards incorporated under the name of West Cambridge. The latter designation was changed, in 1867, to Arlington.

In the pleasantness of its location, in the productiveness of its gardens and farms, in the healthfulness of its climate, in the variety and beauty of its natural scenery, in its social and educational advantages, it is surpassed by none of its sister towns in the vicinity of Boston.

Arlington has a Revolutionary record to which history has scarcely done justice. On the 19th of April, 1775, the British troops marched through it on their way to and from Lexington and Concord, and more than one-third of all the patriots who gave up their lives on that fatal day, fell within its limits. The precious dust of the heroes of that first conflict for American liberty, sleeps in the old cemetery beneath the shaft which grateful hands have reared to their memories. The first capture of military stores and prisoners in the Revolution, was made in this town,—a supply train for Percy's troops, with its guard, being taken just in front of the present Town House.

During the rebellion, the patriotism of the town was displayed. Within ten days after the massacre in the streets of Baltimore, a town meeting was held, which voted to appropriate \$10,000 to raise and equip a company of soldiers. The town paid for bounties the sum of \$52,932.73. Of this amount, \$30,026.73 were raised by tax, \$22,906.00 were contributed by individuals. A military company was organized, which joined the Mozart Regiment, New York, and did faithful service.

When it was known that clothing and stores were needed by our brave defenders, the ladies of the town at once

TREMONT FIRE INSURANCE COMPANY of Boston. Capital \$200,000. Office, 97 State Street, Boston.
G. M. Dexter, President. Jos. H. Wellman, Secretary.

responded to the call of patriotism. One hundred of them assembled and labored seven consecutive days in the work of humanity. A "Ladies' Soldiers' Aid Society" was formed, which raised \$4,314,26, most of which was expended in materials to make up into articles of use for the soldiers. This association sent away fifty-one large and valuable cases of supplies.

Nor were the children of the town deficient in patriotic zeal. They held a "Fair," and the next year gave a "Promenade Concert," which together netted nearly \$1,600 for the good cause.

This town added the honored names of *twenty* of her sons to the long and noble list of martyrs, who gave their lives for their country.

**WOODWARD & BROWN, Piano-forte Manufacturers, 387
Washington Street, Boston.**

BOSTON BELTING COMPANY,

Incorporated, 1845.

ORIGINAL MANUFACTURERS OF

RUBBER BELTING,

Steam Packing and Engine Hose.

The Belting being made of heavy *Cotton Duck* coated with the best of *India Rubber*, and finished with the Patent smooth surface, it is unaffected by *Heat, Cold or Moisture*, and is much preferred to *Leather* or that of any other material for

Saw-Mills, Flouring-Mills, Elevators, Gin-Bands, Agricultural Machines, and other Mechanical Purposes.

INDIA RUBBER HOSE,

Of all sizes and of superior quality, suitable for Conducting and Hydrant Purposes, and for Leading and Suction Hose for Fire Engines.

The Suction Hose is made by a greatly improved process — invented and patented by ourselves — and it excels every other make for service and efficiency.

STEAM PACKING,

Prepared to stand a high degree of heat, is used in preference to any other article by the most skillful Engineers and Machinists for Manhole-Plates, Piston-Rods, Steam-Joints, Steam-Chests, Cylinder-Heads and Stuffing-Boxes, and for all parts of Machinery where packing is necessary.

I. B. HAMBLÉN & CO.,

MANUFACTURERS OF

DAVIS' REFRIGERATOR.

Patented June 16, Re-issued Sept. 15, 1868,

Sole Proprietors for N. E. States,

NO. 67 CORNHILL,

BOSTON.

A. A. CHILDS & CO. Special Exhibitions of Important Works,
made from time to time, 127 Tremont Street, Boston.

HOUSE-KEEPERS

WILL PLEASE LOOK AT MY

Patent Self-Adjusting WINDOW SCREENS,

If you want the only perfect Screen in use; a Screen that will keep out all insects, and not prevent the free use of either upper or lower sash. When the upper sash is down the Screen is up, — when the sash is up the Screen is down. It is quickly and easily adjusted by any child six years old. It is very durable, and ornamental as can be desired. Fitted in a workmanlike manner, or no pay asked.

WIRE CLOTH,

Of all Patterns, at the lowest price. Please call at

No. 109 WASHINGTON STREET,

H. L. MAYO'S

Patent Improved Rubber Moulding,

Room No. 4,

BOSTON,

WHERE YOU CAN FIND A

PATENT SCREW,

For House or Car finishing. It will not tarnish; far superior to the silver-capped screw, and much less price. All the Builders that see them use them.

Don't buy Imitations. Dickinson's FRENCH LUSTRAL SOAP is the only
Genuine Lustral Soap made.

WALKER'S FURNACE.

THREE SIZES PORTABLE.

THREE SIZES BRICK.

This Furnace is constructed upon a *new and improved* principle. The products of combustion pass across the *upper and lower domes* in such a manner as secures economy of fuel and a more equal distribution of heat to their surfaces. Its *spacious sifting* chamber and receptacle for ashes makes it very desirable in this respect. It is provided with double self-packing joints, thus avoiding the escape of gas and dust. The form of its surfaces insures equal expansion, (*a great desideratum*,) as it prevents the opening of joints and warping.

We hope it will be your pleasure to examine this Furnace before purchasing another kind.

SIR, — The undersigned begs leave to inform you that having acted in the capacity of foreman at Mr. ISRAEL M. RICE'S, No. 10 School Street, for nearly twenty-two years, he has now left there and commenced business at

No. 27 PROVINCE STREET,

where he intends to manufacture, to order, all of the latest and most fashionable styles of gentlemen's

BOOTS, SHOES & GAITERS,

Including the English Jockey Boots, Napoleon and Military Boots, Theatrical, Opera, and all kinds of Fashionable Boots and Shoes, of the Finest Quality and Superior Workmanship.

Being capable of cutting and superintending my own work, enables me to furnish the above articles at reduced prices. I use none but the choicest French Stock in my manufacture, and I will spare no pains to merit a share of your patronage.

N. B. — Particular attention given to fitting deformed feet, and lasts made if required.

 REPAIRING neatly done at the shortest notice.

Respectfully, Yours,

P. C. ROCHE.

BOSTON COPPER WEATHER VANES

Were awarded the First Premium

At the New England and New Hampshire State Fairs.

J. HARRIS & SON,
No. 76 Kingston Street,
Opposite Boston and Albany Railroad Depot, and U. S. Hotel,
BOSTON, MASS.

The only manufacturers of raised or swelled Weather Vanes in the United States made entirely of Copper. The advantage of Copper over Zinc and other metals, which have and still does compose a part of all other Vanes, is that the gold leaf will hold its brilliancy four times longer on Copper than on Zinc, which is brittle and easily broken, and when attached to Copper is easily separated. All other Vanes have zinc or iron heads, and some make the bodies partly of zinc. The Vanes put up the last few years bear testimony, with bald or dark heads, so far as a show of Gold Leaf is concerned, while the parts made of Copper remain good and brilliant. Both heads and bodies of our Vanes are pure Copper, and last twenty-five per cent longer than zinc, yet we will sell as low as the lowest. For style, beauty, workmanship and material, we challenge comparison. We have no old patterns; our designs are all new and perfect representations of the animals and objects designed. One look at our Vanes, and no fear of being deceived, as the attempts of parties, with zinc heads, etc., to imitate is a perfect failure. Please call at our Factory and spacious Salesrooms, and examine the largest and only assortment of pure Copper Weather Vanes in America. Send for price list. Liberal discount to the trade.
